Topic: This hands-on workshop will provide applicable skills to understand and interpret a variety of intelligence roles and criteria.

Audience: This workshop will suit persons seeking a career in intel to mid-level career persons looking for a change or career progression.

Outline: Have you tried to crack the code for an intel position but no luck? Not sure where to start? Or are you ready for your next move/ career progression?

Bring along your decoding skills and your resume if you are ready to take the next step.

Afterwards chat with experienced intelligence analysts to find ways to improve your application

SPEAKER

Sofie Nastov has worked in Federal / State agencies in intel spanning 13 years, including extensive experience interpreting Federal and State Government Leadership frameworks, role descriptions and selection criteria. Several intelligence job profiles will be dissected to gauge what you need to address and how to address the role requirements and criteria.
